BAMBO[®]
Nature

About Us

As a family owned business, and as parents ourselves, we know that what you put on your baby is just as important as what you put in your baby.

That's why we're dedicated to creating eco-friendly baby care products that are safe, gentle and supernaturally effective. Because when you have products that can protect AND perform, you can stop worrying and start enjoying happy moments with your kids.

Our Mission

To deliver the most loving and effective eco-friendly baby care products in the world.

Our Commitment

Bambo Nature believes that choosing safe, gentle and eco-friendly products for your baby shouldn't mean compromising performance. After 30 years of achieving the world's highest certifications, we continue to innovate and research, so we can meet an even higher standard - yours.

Diapers

Harmful chemicals are never added to our eco-friendly, disposable baby diapers, ensuring they are certified skin-safe. Being free of all known allergens, they are perfect for even the most sensitive skin. Bambo Nature's unique, fully breathable backsheet keeps your bundle of joy's skin dry, while flexible latex-free leg cuffs and waistband enhance mobility for a more playful playtime. Speaking of performance, Bambo Nature diapers have a super absorbent three-layer design that makes them ideal for overnight protection. And parents, you can rest easy because our new wetness indicator strip helps you know when changes are needed.

Training Pants

Bambo Nature Training Pants are eco-friendly, certified skin-safe and free of all known allergens. With our flexible, thin and easy to pull up and down design, our training pants are designed to make potty training easier for toddlers (and for parents). Our three-layer design has a super absorbent core that provides soft, effective protection for day and night, while our fully breathable backsheet helps ensure dryness and reduces the likelihood of a rash. And because harmful chemicals are never added to our training pants, your toddler's skin will stay more than just dry, it will stay safe.

Diaper & Training Pant Features

Fully Breathable Backsheet

Promotes a cooler and more comfortable experience, keeping babies dry and reducing the likelihood of a rash.

Ultra Soft Materials

Baby's skin is fragile and vulnerable. We source the softest materials for comfort and protection.

Thinner Design

Improved technology allows for maximum absorbency without adding bulk for optimal mobility.

Leakage Prevention

Anatomically designed and strategically placed barriers reduce the chance of leaks.

Top Dry

Our unique three-layer design pulls moisture away from the skin, thus ensuring dryness and reducing the likelihood of a rash even after multiple wettings.

Ultra Flexible Side Panels

Equipped with adhesive tabs and hooks to allow for easy repositioning, side panels flex and generously pull comfortably around baby's hips, ensuring a comfortable wear both day and night.

Perfect Fit

Measurements and feedback from hundreds of users help us optimize all aspects of our baby diapers to fit a baby's body perfectly.

Guaranteed Skin-Safe

Dermatologically tested and free of all known allergens, perfumes and harmful chemicals, reducing irritation.

Certified Eco-Friendly

Our products have received the most stringent and coveted credentials, awards and ecolabels in the world.

Know When They Go

Wetness Indicator

Liquid-sensitive strip changes color to indicate wetness. Now featured on all diapers size 1-6.

Skincare

Bath Buddy

Our **hair and body wash** gently nourishes and cleans. Containing natural and certified organic ingredients, it's a superb bathtime companion specifically developed to care for sensitive skin and scalps.

Tidy Bottom

Our **baby wipes** are certified skin-safe and eco-friendly, with ingredients lab-tested to be sensitive to baby's fragile skin.

Item #114809

Wipes

Gentle on both Baby & Environment

Bambo Nature is not only committed to a comfy, absorbent diaper for your child, but also leaving the world a better place. Our diaper and skincare lines are produced with sustainable, eco-friendly manufacturing processes. No harmful chemicals, perfumes or parabens have been added to our products, which minimizes the risk of allergies and rashes to keep your baby's skin healthy and happy.

Organic-Certified Skincare

Eco-Friendly Diapers

Certifications

Many brands claim that they are environmentally-friendly and healthy for your skin, but Bambo Nature has the credentials, awards and eco-labels to prove it. Here are a few of the honors we've received and what they mean for you and your family.

Asthma-Allergy
Denmark

The prestigious blue label honoring allergy awareness

The Asthma & Allergy Association Denmark offers certification to products that pose the smallest possible risk of causing allergy, eczema or skin irritation to the user. Products that earn this certification must contain no fillers, perfumes or formaldehyde.

The mark of environmentally friendly cosmetics

ECOCERT, the first certification body for natural and organic cosmetics, ensures that products meet high environmentally friendly standards, straight from ingredients to packaging. Only products with a minimum of 95% naturally sourced ingredients by weight are eligible for certification.

Promoting sustainability at every step

With the goal of creating a sustainable society through sustainable consumerism, the Nordic Swan Ecolabel evaluates the environmental impact of products throughout their entire life cycle—from raw material selection, to the manufacturing process, straight through to the disposal of the product.

Rewarding responsible use of forest products

The Forest Stewardship Council (FSC) is a nongovernment, nonprofit organization dedicated to promoting responsible management of the world's forests. Our diapers and training pants are FSC-certified and have been manufactured with pulp from sustainable forestry where more trees are planted than felled.

Rewarding products that are gentle on skin

Independent institutes consistently conduct dermatological tests on all our products. By testing subjects who are predisposed to atopic skin diseases such as eczema, we can ensure that even people with sensitive skin can use our products.

Reasons to Believe

Diaper Performance

- ✓ Designed to minimize the risks of allergy and diaper rash
- ✓ Ultra-absorbent for both daytime and overnight use
- ✓ Fully breathable backsheets
- ✓ Wetness indicator
- ✓ Leakage protection

- ✓ No harmful chemicals or perfumes have been added
- ✓ Eco-friendly – sustainable resources and less waste
- ✓ Dermatologically tested
- ✓ Recipient of the strictest accreditations in the world
- ✓ Contains natural, vegan and certified organic ingredients

FAQs

1. What are Bambo Nature diapers?

Bambo Nature has been the top selling certified skin-safe and eco-friendly premium baby diaper in Europe for more than 30 years.

2. What sets Bambo Nature diapers apart?

Our diapers are created with parents in mind who seek safe and healthy products for their child(ren). To avoid allergic reaction, Bambo Nature diapers are free of harmful chemicals and all known allergens, nor contain any substances known as harmful to health and the environment. All of our diapers have been tested dermatologically by the institute ProDERM (Institute for Applied Dermatological Research) and ATC GmbH (Applied Tax-Consult) with the result "Good." Our products are not tested on animals.

3. How absorbent and breathable are Bambo Nature diapers?

Our technologically innovative diapers are thin, yet ultra-absorbent and feature a fully breathable backsheet. This allows moisture to be wicked away faster, keeping baby's skin dry and reducing the likelihood of diaper rash. A dry environment, along with the absence of harmful chemicals and allergens not only prevents, but also aids in the healing of diaper rash.

4. What sizes do Bambo Nature diapers come in?

Bambo Nature diapers are available in sizes 1-6 and training pants are available in sizes 5-6.

5. Has Bambo Nature done any product testing?

Bambo Nature products have been dermatologically tested to ensure that they do not cause skin irritation or allergy. This combined with the strict criteria one must adhere to in order to be awarded the Nordic Swan Eco-Label accreditation, means that you are getting the safest possible product for your child's skin. Additionally, Bambo Nature has certifications with EcoCert, Forest Stewardship Council and Asthma-Allergy Denmark. Visit www.BamboNature.com to learn more about our certifications and what they mean for you and your family.

6. How does Bambo Nature rank the environment as a priority?

Instead of viewing environmental work as an expense, we consider it a prerequisite for the creation of a better company. Abena, the manufacturer of Bambo Nature, has voluntarily elected to undergo strict, rigorous environmental inspections of their products. The setting of criteria is based on an assessment of impacts during the whole life-cycle - all the way from raw material to production, consumption and waste. This means all raw material suppliers, business partners, distributors, and subsidiaries must embrace these principles and actively take them on board in daily business practice.
